Pain in the Back

A Sure Sign of Kidney Trouble. Dr. Kennedy's Favorite Remedy will cure you.

Pain in the back is a never failing sign of kidney disease; another sure sign is the condition of the urine; if you have a pain in the back then look to the condition of your urine. Take a glass tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, pale or discolored, stringy orropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal.

F. C. Wilcox of 559 New Britain ave., Hartford, Conn., says: "I had a frightful pain in my back, the result of kidney trouble. My physician seemed powerless to relieve me. I determined to try Dr. David Kennedy's Favorite Remedy; it helped me wonderfully, and in a short time cured me completely."

Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation and corrects the bad effects of whiskey and beer on the system. It is wonderful how it makes that pain in the back disappear, how it relieves the desire to urinate often, especially at night, and drives away that scalding pain in passing water and in a remarkably short time makes you well and strong.

All druggists sell Dr. David Kennedy's Favorite Remedy in the New 50 Cent Size and the regular \$1.00 size bottles. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

Equality.

Written for the Advertiser.

They tell me I am qualified To rank with the four hundred, And as to what the reason why I've studied, dreamed, I wondered, I think I could speed as much As his swiftest over squandered, And reckon I should look as well When fully groomed 'n' laundered.

I'm sure I'd hold my head as high 'F' I wore them tall stiff collars, 'N' I'd cut Europe, too, I hate, 'I had half their dollars, And in our family there's been A mighty nasty scandal, To which the big four's escapades Can't hope to hold a candle.

And as to diplomatic talk, Why, I'm a screamer! wonder, Our folks, all liars by the clock, Give me the prize, 'b'under. The whole darn push are diplomats, That no one can deny, But all allow that I am the Best.

And as for tragedy ancestors, They'd quickly find I had 'em, For I can reckon lineage Clear back to Father Adam— If that fellow rook, I'd claim a few Old prehistoric sinner for certain, And if they reckon back of that, They must be right smart liars.

CORA M. W. GREENLEAF.

A Spring Poem.

Dedicated to the Oxford County Advertiser You say the spring poet has not opened up yet. A verdant he is bilious, or has taken a fit, There must be some crumb for certain, I have inhaled the sweet perfume of mead on the air.

The woodcock is singing at the door of his lair And the blue-jay is passing his ruffled air; The cat on the rampage with his feline air, While the dog joins the chorus with his bow-wow.

The bluebird is trilling his notes of delight, While the robin is pumping her anthems of cheer And the crow and the jay are seeking a clime Where the beauties of nature are ever sublime. And your own engine will splutter and splash, And run your old engine will splutter and splash, To set up our nonsense and spread it withal, When the don't know us are shocked at our gail.

Diary of a Cuban March.

The Cavalry out for a Little Practice—A Hot Celebration—The River that Runs into a Hole in the Ground—Big Tobacco Plantations—Sights in Cuba.

Troop F, 7th U. S. Cavalry, Columbia Barracks, Cuba. Well, I will try and give you a few notes from my diary kept on our 15 days' practice march through the province of Pinar del Rio.

On Thursday, Jan. 16th of this year, Troop F and Troop G and a pack train of 60 mules started on our trip. We left camp at 3:30 p. m., raining quite hard. At 3:30 p. m., we made camp at Guanajay, a small town 32 miles west of Havana.

Friday, Jan. 17, left Guanajay at 8 a. m., made camp in the mountain near a destroyed town. The bed of the river leaves; took first wash on trip (at night). Saturday, Jan. 18, broke camp at 7:30, had a rough trail, looks as if it had not been used for years. We passed a number of deserted towns, which once must have been of good size. One fellow got too much drunk so he had to walk all that day. At 1:30 p. m., we came to a fine road, level country. At 3:30 we camped at San Cristobal, 90 miles from Havana.

Sunday, Jan. 19, broke camp at 7 a. m. This day saw one of our long and hard marches through the mountains, very steep trail. Sometimes we had to dismount and walk down the steep trail, and again we were forced to swim streams. At last we arrived at Sulphur springs at 4:30 p. m. We were all pretty tired. That night we took a bath in the spring. I went here to wash my face. The name of the place is Santiago de los Caballeros.

Monday, Jan. 20, 7:30 a. m., country very hilly and remained the same until noon, then we struck a level. At night we camped within 12 miles of Pinar del Rio.

Tuesday, Jan. 21, we broke camp at 8 a. m. and at 11:45 we entered the city of Pinar del Rio. My, what a dusty and filthy looking place, even the people look dusty as if they had been in the mud. There was one fair looking street. We passed the old Spanish barracks. It was here that Troops C, G, E and I of the 7th Cavalry were stationed before they came to Columbia Barracks. It was also here that Farrell came in. A large number of Troop G, then stationed at Pinar del Rio, supposed (?) to have killed Private Crouse of the same troop. This was a very queer trial. Farrell shipped to South Africa the night after the murder. He was brought back here and tried for the murder of Private Crouse but it could not be proven as no witnesses were called. He was discharged and came to Columbia Barracks and gave himself up as a deserter from the army.

Margaret Fletch is still working for Mrs. John Keene.

Mame Fuller is working for her sister, Mrs. Will Freeman.

Arthur Salome has been visiting his parents in Salem, Mass.

Ice went out of the river, Mar. 24th, which is from one to four weeks earlier than usual.

Susie Elliott from Rumford Corner is working for Mrs. W. F. Clark, who is sick with a bad cold.

Margaret Fletch from Harrison, who has been working for Mrs. John Keene, is now working for Mrs. Will Freeman.

Hiram Carey from the mill is helping his cousin, W. E. Clark, through "sap time." They are making some very fine syrup.

A. J. Knights' teams are yarding cord wood out of the woods on his lot near Green. He keeps his horses in C. M. Elliott's barn.

Mr. and Mrs. John Keene have given two whist parties. Ice cream and cake were served and a very pleasant time enjoyed by all.

The "children break-downs" at W. A. Arthur's were much enjoyed by the young folks. E. A. Haynes and wife from West Peru furnished music on violin and organ.

NORTH WOODSTOCK. An Industrious Woman. Lusia Hemmingway has spun, doubled and twisted some over 180 skeins of yarn the past year, although in poor health and at times a great sufferer. She spent her 75th birthday, Mar. 16, at V. D. Cole's in Milton, which was made a very pleasant occasion.

Little Lu Bryant has been sick but is reported better.

C. H. Sessions sold his Pachen mare to S. Thomas of Auburn.

Lorenzo Billings is making maple sweet on the Frank Millett farm.

Herman Billings and wife of Bryant's Pond visited his sister, Mrs. G. Brown. W. S. Sessions was at home from Hebron over Sunday recently and was visiting his brothers in Providence, R. I. Mrs. Harriet Billings is sick with the prevailing lung distemper. Her son Elmer is also nearly sick with a very bad cold and cough.

He got a dishonorable discharge, that was all. I think he was lucky. We camped near the old barracks. I go on guard at 2 p. m., Jan. 22.

Wednesday, Jan. 22, broke camp at 7:45 a. m. Now we are in the little town of Guanajay, where some of the finest tobacco in the world is grown. One plantation is owned by the Havana Commercial Company. It consists of 700 acres. We make camp at 3:40 p. m.

Thursday, Jan. 23, we broke camp at 7:30 and went through the western part of the city, which is very level. At 9:30 transferred the guides (I forgot to state we had two rural guides for guides) in the mountains with prisoners. They had the fellow tried on a horse. I believe he was some bandit. At about noon we sighted the water which bounds Cuba on the south, also a Spanish warship, or rather what is left of her, on the beach.

At 3:40 p. m., we arrived in the little town of Guanajay. This night a great celebration was taking place so we all went to town. Well, talk about your western towns running gambling places, why they were not in it. On this night I saw a very pretty town. Some of the men were monte, faro, craps, chuck-a-luck and nearly every game known. Well, some of the boys went broke and some won. It was certainly the warmest little town I have seen in Cuba, besides a very pretty town. Some of the men "never came home until morning."

Well, I guess we will not forget this town for a while.

Friday, Jan. 24, up and away early this morning. Some of the boys had some pranks of the night before. Oh, my! some poor fellows have too much Cuban wine. I am in the rear of column to-day, country very beautiful. We made camp at San Luis.

Saturday, Jan. 25, broke camp at 7:30 a. m., and passed through San Luis. It was here I had quite a surprise. When half-way through the town met a young man riding a Cuban horse. He looked hard at me and said, "How do you do, Loring? do you not remember me?" Well, I knew him, he was in the 2d U. S. V. with me. I expected a lot of the boys who were with me in Cuba. On the way we got two chickens, passed a desolation.

Sunday, Jan. 26, broke camp at 7:30, arrived in Pinar del Rio at 10:45 in same camp as before, drew rations for 5 days.

Monday, Jan. 27, bid farewell to Pinar del Rio and rode back over the same trail until we reached guides of Consuelo (a town on the Pinar del Rio R. R., eighteen miles east of Pinar) pass through this town. About noon we passed a creek, where some Cuban officers were waiting for us. On the cross were the letters L. N. R. I.

Tuesday, Jan. 28, broke camp at the usual hour. Country very rough, trail very poor. About noon passed through the town of Palacios, stopped on outskirts of town for a little lunch. Next town was Taco Taco. Made camp at Santa Cruz de Los Pinos.

Wednesday, Jan. 29, broke camp at 6:45, long march, level country. At 2 p. m. passed through San Cristobal, where we stopped to change horses.

Thursday, Jan. 30, next stop at San Antonio Del Los Banos, meaning City of Lost River. It is here that the river side of it runs into a large hole and no one knows where it runs to. A large iron fence is built around the hole so children can fall into it and be drowned.

Friday, Jan. 31, broke camp at 7 a. m., just day out, no one is sorry. Arrived safe and sound at Columbia Barracks at 2:30 p. m., paid at 3 p. m. and mustered at retreat, the next day was a day off for us to clean up our equipments and get ready for our usual barracks duty. A target practice was held. We are at 600 yards.

SOUTH RUMFORD. Nearly Burned Out. F. P. Putnam's family had a narrow escape from being burned out about four weeks ago. Their daughter, Mrs. Arthur Stone, who lives there, woke at 2 a. m. and smelled smoke. She aroused the family and they soon found a brisk fire around the chimney in the parlor. It took several barrels of water and four men about two hours to put it out. Damage from fire and water, \$100.

Margaret Fletch is still working for Mrs. John Keene.

Mame Fuller is working for her sister, Mrs. Will Freeman.

Arthur Salome has been visiting his parents in Salem, Mass.

Ice went out of the river, Mar. 24th, which is from one to four weeks earlier than usual.

Eggs are 12c a dozen.

Dean Sawyer is attending Potter academy.

Frank Manchester is working at Crockett's Mills.

Jack Fredale has bought a horse of Will Decker.

Belle Stone has been visiting friends at South Bridgton.

Mrs. Clarence Sanborn of Baldwin was brought to this place and buried on the 14th.

Dr. A. P. Reed is the chosen supervisor of this town, Mr. Lamb having resigned.

Alfred Bartlett, who has been at work in the woods up at Gilead, is very sick up there.

Lyman Proctor's health has improved so that he has returned to his work at Samuel Kimball's.

Mellen Ridlon and wife are engaged to superintend the town farm. Henry Watkins has bought his cows.

Thomas Mayberry's family are all on the sick list. They are being cared for by Mrs. Annie Paine of Song.

Ralph Mayo, Stillman Wentworth and the Lamb brothers are engaged in hauling the new iron bridge from East Baldwin.

Mrs. Joshua Goodridge and daughter Emily, who have been boarding at Samuel Kimball's the past winter, have returned home.

The children of Mrs. Willie Burnham have been sick with pneumonia, but are better at present. They moved to Deering last fall, where Mr. Burnham is employed on a milk farm.

Mrs. Thatcher Taylor has returned from the insane asylum very much improved in health. Nelson Burnham, who went there last fall, is no better. They consider his case hopeless.

Fire Extinguishers
U. S. Separators
Lister's Fertilizers
Harrows, etc.

The National Standard Fire Extinguishers are generally admitted to be the best.

I am selling them. You cannot afford to risk your life and the lives of your family and animals, your home and your property without one or more of them placed where they can be reached handily in case of fire or lightning or any other cause. They are better than a gun to run to a burglar that may get into your house.

I am still selling the U. S. Separators. They have been improved in construction and capacity and are better than ever. I intend giving among the people on my territory soon, to show them the merits of this machine.

I shall handle Lister's Fertilizers this year as usual and shall be glad to supply my neighbors as in the past. We are selling Grain and Flour very low. If you want any kind of a Harrow come and see me.

Poor Bird With Broken Wing.

Written for the Advertiser.

Poor little bird with broken wing!
She cannot fly, she cannot sing.
But yesterday she soared so high—
Now she can neither sing nor fly.
High poised no arrow troubled her,
The hunter's aim was sure to err.
But swooping low some sweet to share,
She was caught within the Fowler's snare.
Now when he comes to look for prey—
His snare was set for yesterday.
And lo! there with broken wing
And she cannot fly nor sing.
Will he be merciful and let her go?
Or will he set her free again?
And leave her all alone to die
In barren fields where dangers lie?
Nay, nay! For all his tenderness
Is now awake. With fond caress
He soothes and quiets, till she lies
All still, and turns her gentle eyes
On him in trust and love—his smile
The bitter pain will now beguile.
He binds the fragile wing with care,
Then takes her home with him to share
Its warmth and love. So day by day
The healing balm holds never away.
She finds at last that never more
From this dear home—she never to soar.
But happy now—for she can sing—
What matters, then, a broken wing?
For her soul makes sunshine bright and fair
For him who saved her from the snare.

Autograph Album.

A few years ago every young person, and some older ones, had an autograph album. Some of these sayings of our younger years look and read queerly when read through eyes that have since been obliged to wear spectacles. Mrs. Ellen P. Kimball of Bethel sends us some lines copied from an album of 1881 and 1882, many of them from her pupils where she was teaching.

My Album's open, come and see;
What! won't you write a line on me?
Write but a thought, a word or two,
That memory may revert to you.
Love is the sweetest sunshine
That warms into life,
For only in darkness
Grows hatred and strife.
Your friend and scholar, Mabel Farwell,
Bethel, Me., Feb. 26, 1881.

I dip my pen into my ink
And grasp your album tight,
But for my life I cannot think
Of a single word to write.
Carrie Howard.

Live for those who love you
For those who know you true,
And the heaven that lies above you,
And wait your coming too.
Now your scholar and ever your friend,
Bonnie J. Bartlett, East Bethel, Me., July 7, 1881.

Not like the rose may our friendship wither,
But like the evergreen live forever.
Mary A. Cole, Greenwood, Me., Oct. 9, 1882.

Though friends must part on earth I weep,
Yet in these silent pages
A mine of wealth you prize unseen,
Unseen by mortal eyes.
From your friend, Sarah Farwell, Mar. 8, 1881.

Forget me not, I only ask
This simple boon of thee,
And may it be as easy task
Sometimes to think of me.
Your friend, Mrs. Sylvia Farwell, Bethel, Feb. 26, 1881.

Dear Teacher—
For awhile we have been together,
Soon we must part perhaps forever.
If so parted we must be
Grant my last wish, remember me,
Yours with love, Flora Bartlett, Bethel, July 27, 1881.

Mallinda Barker, Bethel, July 27, 1881.
Your loving little scholar, Sophia J. Martin, Bethel, Maine, age 7.

In the golden chain of friendship regard me as one link, Gertrude Bartlett, East Bethel, Me., July 2, 1881.

Teacher, Remember your loving scholar, Emma Brown, Bethel, July 27, 1881.

There is a motive power that causes our actions; when we act, God looks upon the motive that caused the act; our object in acting is to glorify God; we are blessed with peace; if not the action does us harm. Daniel M. Kimball, Bethel, March 18, 1881.

Where Lies the Blame?

Did you ever? Did you ever think when hearing writers of locals, men and places severely criticized for inaccurate statements that the blame does not always rest on the writer?

Many of these reports are gathered from hearsay, and if one will take the trouble to listen to the version of a dozen different persons, of any one matter or sensation, and will find two that will agree in every detail, it will be a remarkable coincidence.

The honorable man in one man's estimation is a knave in the estimation of another man, and it is not always the good man that is landed the highest, and it often occurs that a neighbor's likeness is not recognized in a portrait, unless, any more than in a flattered photograph.

A journalist comes among you to write up the business, its history, perhaps, and as a matter of course he calls on the "influential" element to direct and coach him. His informant or informers point out the honorable, the highly respectable element, the wonderful men and women of the place, and if the journalist is a great pen-painter, and as it is with a great flourish and surprises you with wonderful characters and characteristics which you have never before discovered, and you exclaim, what a liar! Who lied?

Since the library has been established here and there are books galore, authors are occasionally discussed. John and I come easily to the conclusion that the women writers lead the van, as Solon Chase would say, for "good easy reading."

If one wishes to solve problems, or riddles, let him select some writer of profound or obscure thought, verify without a name by name by reason of not being understood, but for me none of these. I have neither time nor talent to unravel learned and useless phrases.

I prefer violin to any other instrumental music where tunes are played, and as it is with a great flourish and surprises you with wonderful characters and characteristics which you have never before discovered, and you exclaim, what a liar! Who lied?

What Shall We Drink?

Why need a man die or even be sick now-a-days. We have medicines for all diseases and some of them singly are panaceas for all of man's afflictions.

What is more, there are many beverages concocted which contain both food and medicinal properties, also, are medicated and otherwise, aids to digestion, etc. Why need a man be sick?

That old staple beverage, known as coffee, is banded and cuffed around in these latter days to make room for something that men can make a dollar out of. To me coffee was always a luxury and I have used it, lo, these many years. In war times, people substituted many things, peas, carrots, etc., because of the high price of coffee.

Some would say, "I have substituted this or that and I have got so I like it about as well as coffee." Not so in my case, I use this or that to save expense and doubtless it was the same with them.

Well I am now about worn out, my physical as well as my mental machinery is sadly out of gear, hence I have dropped some of my excesses, coffee being one. Since, I have tried some of these "aids to digestion," as they are advertised, the smell was enough to carry me back to my old economical days. Then I took some of the cereals with no better success.

One particular kind, to give it dignity and consequently to make it palatable I gave the highfalutin name of Pea O, but this was peas just the same, and here I concluded that if others wish to humor a depraved appetite with such stuff, it is a right they have.

Yes, if I want peas, wheat and barley-corn I can get it up myself at one half of the expense, still we will be compelled to be served with those strategic "aids" which runs a fellow down a half column before the humbug is discovered.

WORTH \$300,000,000.

The President of a certain big Oil Company is said to be worth \$300,000,000. A tidy bit of money and no mistake. And yet he isn't happy. In an address to a Bible class he spoke of trials and troubles of the rich and the loads they have to carry. A young lady whispered to a friend that she might wear a Benson's Plaster on his back, better still, divide the money among the members of the class. I don't know why her idea about the plaster makes me want to laugh, but it does. All the same I have seen plenty of people laugh after putting Benson's Plasters on their backs or chests, or on any other spot where there was weight, heaviness, weakness or pain. It may be the sharp stabs of neuralgia, the aches and wrenches of rheumatism; it may be colds in muscles or bones; it may be those kidney or lumbago thrusts that make you yell as at a dog bite; or it may be a strain or cramp, anything that wants quieting and comforting. Don't bother with salves, liniments, lotions, etc., or with any of the stupid and useless old style plasters. Clap on a Benson's. It relieves at once and cures quickly. It stops the pain and makes you laugh for the very ease and good feeling of it. But wait! People against imitations and substitutes. All druggists, or we will prepay postage on any number ordered in the United States on receipt of 25c. each.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. I. A. O. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

NORTH WATERFORD.

"The Deacon."
The South Waterford Dramatic Club presented their drama, "The Deacon," last Friday evening, at Odd Fellows' Hall in our village to a well filled house.

If the traveling had been better and a much larger crowd. But those who were there pronounced it a fine, well gotten up play. Much credit is given to those who took part in the play; also good music was furnished between the acts by Messrs. Andrews, Packard and Holt, with Lena Bisbee presiding at the organ. After the drama a dance followed, when thirty couples joined in the march.

They have come, and rather early, too, those pesky little things, mosquitoes. Quite a number from East Waterford attended the drama, last Friday evening.

Edna Stephens went back to her school, in Boston, Saturday. Her mother, Mrs. C. A. Stephens, went back with her for a few weeks' visit with relatives and friends.

It is dangerous to walk or ride around the lake here, especially in the evening, there are so many holes in the road. We would like to ask where the road commissioners are.

BUCKFIELD.

The Pomological Institute.
Met at Nesinset Hall on Friday, March 28th, for the discussion of fruit culture. In the forenoon at the opening of the meeting in the absence of the president, R. H. Libby of Newport was called to the chair. Rev. Mr. Munson offered prayer. Chas. H. Prince gave the address of welcome, Secretary Knowlton of Farmington responding, V. F. DeCoster and Solon Chase following with brief remarks.

The stage was prettily set out with potted plants. Rev. Mr. Munson had many photos of rare botanic specimens. A far better show of fruit than one might expect at this time of year. Mrs. V. P. DeCoster contributed various kinds and shades of jellies from apples. At the afternoon session a Mr. Arnold from the eastern part of the State read a paper on fruit culture as they view it in their section.

Prof. Waugh was called to discuss the Ben Davis apple and what it stands for. Well, he did discuss it, built it up, pulled it down, and finally, after stating that a man would never call for the second barrel, concluded for the man who was dependent on the general market for the sale of his fruit the Ben Davis was the apple to raise, since the market would never change but remain in statu quo.

He stated too that the western Ben Davis was no better than the New England grown, which is contrary to all reliable information. Then again if the Ben Davis is the apple which he describes it how long before the European market will condemn it?

When we old people were boys an orange was an orange. Not so today. People are coming to be more fastidious in their tastes, and they are not all fools over the water.

I shall not attempt to discuss the good things that were said, for these stand on their merits, but some of the erroneous views I feel constrained to briefly mention. The presiding officer in his remarks very strongly sought to impress the farmer that he should make small fruits a specialty as he did.

"Why," said he, "I could not get a living at farming. I want more of the good things of life than can be gotten from the farm, hence I make a specialty of small fruits."

Let us reason together. The writer has had some experience in fruit culture. About three decades ago, or more, early apples brought a good price. Burrah, Yaxkett, it is early fruit, and early it was. In a few years they had but little commercial value. They largely rotted on the ground. Then came the southsayer, the Russian crab was all the rage. I planted some in Minnesota.

"Why," the sayer from the Russian crab is worth \$10 per barrel," but I did not tarry to obtain the benefits accruing.

Not far from thirty years ago in shipping apples to Boston I sent along a barrel of Siberian crabs. \$9 were the prices. Two years later in looking for quotations I found them a drug at \$2.50, and now what have not been out down are bearing fruit to rot on the ground and breed vermine to destroy standard goods.

We afford to employ men, who admit that they can't live by farming, to teach our farmers?

Mrs. E. G. Cole is improving.

Presiding Elder Southard was in town over the Sabbath.

Little Mary Gardner, Storer Cole and Warren Shaw have the mumps.

Judge Foster of Portland has been in town of late, also Rev. J. A. Libby of West Poland.

My neighbor, Wm. Irish, has lived well up to 80 years to hear the frogs sing in March, a thing he accomplished on March 30th.

Rev. Mr. Turner and Mrs. Wallace Tuttle, who are receiving hospital treatment, the former at Portland, the latter at Lewiston, are favorably reported.

The dinner gotten up as a benefit for George Ingerson's family netted over \$82. Mr. Ingerson has been sick for a long time, and all took hold with a will. Three long tables were loaded at Nesinset Hall and the people responded well. Some who did not partake of the dinner responded liberally.

WEST BETHEL.

Troubled by Rheumatism.
We are sorry to see one of our most influential business men, Mr. N. H. Springer, so badly used up with rheumatism, for it makes it very uncomfortable for him to attend to his mill business, besides suffering the pain caused by such troubles.

Fred McLeod has had his hay pressed. Elver and Grace Kendall visited relatives and stopped over Sunday.

Geo. Merrow was at home with his parents a few hours, last Sunday.

Mr. Ivy is expected in the place, this week. He has a man here to work for him, who came from New York.

WEST PARIS.

Easter Sunday.
Sunday, March 30, was a typical Easter day. The sun shone warm and bright and the robins sang their sweet notes. The brown fields lately striped of their winter mantle gave promise of spring time gladness to all. Easter services were held in both the Methodist and Baptist churches, Mr. Holman being present to preach at the Baptist church. A union concert under the auspices of the W. C. T. U. was given at the M. E. chapel in the evening. The alcove over the pulpit was prettily decorated with evergreen and festoons of egg shells, which the ladies had saved and colored—about forty five dozen of every hue and shade—with a cotton flannel dove suspended from the center. A hen's nest with the most choice eggs, that were afterwards distributed among the children, was made on a small table in the center of the platform with potted plants on either side. The program was unique and very successfully carried out. The children too all deserve great credit for the performance of all their parts. Following is the program:

Voluntary.....Lullie Tuell

COFFEE is king of the Breakfast Table. It can spoil a good breakfast; it redeems a bad breakfast. Food feeds the body; coffee feeds both body and wits. It stimulates and arouses! Six hundred years has found no substitute for it. But unless you drink extra pure coffee you lose the subtle invigoration and might as well drink water. There are many ways of missing pure coffee; there is one sure way of getting it. Ask your grocer for Chase & Sanborn's Coffee and refuse substitutes.

Sore Lungs

Can be Cured Almost Instantly
With Minard's Liniment.

If a cold settles on the lungs it will never leave of its own accord. It may shift the soreness to some other part of the body, but it leaves a weakened spot on the lungs that clings there until strengthened by the proper medicine. Colds unquestionably, in almost every case, are the creators of consumption. Don't even let a cold get lodged on your lungs—you can keep it off. Just the instant that you feel the slightest soreness, bathe your chest in warm water, then give it a good rubbing with Minard's Liniment. The greater the inflammation, the faster will the medicine be absorbed through the pores. It may smart some, it may start you gasping, but never mind; it will take that cold right out of your system in less than an hour. After you've rubbed it in thoroughly, just mix a little with molasses, and swallow a teaspoonful. You can feel it all the way down to your stomach, and when it passes the sore spot in your throat or lungs you'll feel like a new man. You'll breathe easier, feel stronger, speak clearer, and can distinguish the soreness leaving.

On Jan. 6, 1902, Mr. A. R. Mills, of New Haven, Me., wrote as follows: "Your Liniment relieved me of a severe cold with sore throat, rheumatism, and could get to rest. When your 'King of Pain' ointment, I rubbed it on the back of my neck and it worked like a charm. I have been free from all pain for ten days now, and think Minard's Liniment the greatest medicine I ever saw. I'll never be without it now."

No one can doubt the virtue of an article that has such remarkably strong endorsements coming from our friends, people living right in our midst, whom we know and whose truthfulness we can vouch for. Read Mr. Crampton's letter; it speaks whole volumes though short:

"I got a bottle of your Liniment for my wife, as she was suffering with a terrible pain in her side. I applied it to the spot and she was relieved. In the morning she felt no more pain and hasn't since."

Just invest a quarter and see the great amount of comfort you'll get out of a good-sized bottle. For sale at all druggists.

DO YOU WANT TO BE WELL AND STRONG LIKE ME?

Then Use Dr. Greene's Nervura—It Gave Me Health and Strength.

Beauty is the dower and the gift is priceless. Beauty lies in having a brilliant eyes, and vivacity to all women who are in there are to-day who are priceless possession of which nature bestows upon woman. Most women can be beautiful, for clear complexion, velvety skin, of expression, attributes common good health. How many women gradually but surely losing their beauty! Their health has become poor, they are run down, they feel weak and nervous, have headache, poor appetite, indigestion, biliousness, constipation, kidney or liver trouble, backache, female weakness, or some other difficulty, which is surely sapping their health and strength and ruining their beauty. At this season, Spring Debility is woman's worst enemy. A woman's first duty is to regain and maintain her health and beauty. If she gets back her health, beauty will surely follow. For beauty depends entirely on good health. The great health-giver and beautifier for women is Dr. Greene's Nervura, blood and nerve remedy, for nothing in the world so surely and quickly restores lost health, gives strength and vigor to the nerves, purifies and enriches the blood, and makes women strong and well as Dr. Greene's Nervura. It clears the complexion of that dark, sallow, pale look, removes eruptions, blackheads, and humors, makes the skin velvety and glowing with rosy color, the eyes brilliant, the lips red, imparting a full, round contour to face and form. Above all it banishes melancholy and restores the lively spirits, vivacity, light, elastic step and exuberant life, energy, and enjoyment which constitute happiness to women. Dr. Greene's Nervura does all this because it makes weak women strong and sick women well, and thus prevents them from growing old before their time. It makes them look young and feel young, for it braces women up as nothing else in the world can. Try Dr. Greene's Nervura; you will never regret it. Use it now, for you certainly need a spring remedy, and Dr. Greene's Nervura blood and nerve remedy is the best of all spring medicines. In taking Dr. Greene's Nervura you are using the wonderful prescription and discovery of a famous physician, Dr. Greene, of 34 Temple Place, Boston, Mass., who is the most successful physician in curing all forms of nervous and chronic diseases, and who can be consulted without charge, in regard to any case, personally or by letter.

TONIKO-TEA CURES INDIGESTION.

Can't Sleep.

Sleeplessness or insomnia is due to nervousness sometimes; or it may be caused by indigestion or constipation. In any case the stomach is back of it all. You never heard of a man who ate heartily, whose food digested properly and was regular in his personal habits, complain of not being able to sleep. Sleep will come naturally if you make perfect health possible. TONIKO-TEA and health mean just the same thing. Wherever you find TONIKO-TEA you will find health, and the converse is almost as true. TONIKO-TEA taken according to directions regularly for one week will induce natural, easy, restful slumber.

DO YOU WANT TO BE WELL AND STRONG LIKE ME?

Then Use Dr. Greene's Nervura—It Gave Me Health and Strength.

Beauty is the dower and the gift is priceless. Beauty lies in having a brilliant eyes, and vivacity to all women who are in there are to-day who are priceless possession of which nature bestows upon woman. Most women can be beautiful, for clear complexion, velvety skin, of expression, attributes common good health. How many women gradually but surely losing their beauty! Their health has become poor, they are run down, they feel weak and nervous, have headache, poor appetite, indigestion, biliousness, constipation, kidney or liver trouble, backache, female weakness, or some other difficulty, which is surely sapping their health and strength and ruining their beauty. At this season, Spring Debility is worst enemy. A woman's first duty is to regain and maintain her health and beauty. If she gets back her health, beauty will surely follow, for beauty depends entirely on good health. The great health-giver and beautifier for women is Dr. Greene's Nervura, blood and nerve remedy, for nothing in the world so surely and quickly restores lost health, gives strength and vigor to the nerves, purifies and enriches the blood, and makes women strong and well as Dr. Greene's Nervura. It clears the complexion of that dark, sallow, pale look, removes eruptions, blackheads, and humors, makes the skin velvety and glowing with rosy color, the eyes brilliant, the lips red, imparting a full, round contour to face and form. Above all it banishes melancholy and restores the lively spirits, vivacity, light, elastic step and exuberant life, energy, and enjoyment which constitute happiness to women. Dr. Greene's Nervura does all this because it makes weak women strong and sick women well, and thus prevents them from growing old before their time. It makes them look young and feel young, for it braces women up as nothing else in the world can. Try Dr. Greene's Nervura, you will never regret it. Use it now, for you certainly need a spring remedy, and Dr. Greene's Nervura blood and nerve remedy is the best of all spring medicines. In taking Dr. Greene's Nervura you are using the wonderful prescription and discovery of a famous physician, Dr. Greene, of 34 Temple Place, Boston, Mass., who is the most successful physician in curing all forms of nervous and chronic diseases, and who can be consulted without charge, in regard to any case, personally or by letter.

TONIKO-TEA CURES INDIGESTION.

Can't Sleep.

Sleeplessness or insomnia is due to nervousness sometimes; or it may be caused by indigestion or constipation. In any case the stomach is back of it all.

You never heard of a man who ate heartily, whose food digested properly and was regular in his personal habits, complain of not being able to sleep. Sleep will come naturally if you make perfect health possible.

TONIKO-TEA and health mean just the same thing. Wherever you find TONIKO-TEA you will find health, and the converse is almost as true. TONIKO-TEA taken according to directions regularly for one week will induce natural, easy, restful slumber.

Dear Sir,—I have been troubled with indigestion about two years. I commenced taking your tea some time ago and I am now well. I was so nervous I hardly knew what to do, but now I can go to bed and sleep. I have not been troubled with Nervousness and indigestion since I commenced taking Toniko-Tea. I will praise Toniko-Tea wherever I go for the good it has done me.
Yours truly, LUTTIE COLE.

Industry at Snow's Falls.

C. K. Corsaut, esq., of Boston, president of the recently formed Linen Manufacturing Co., who are soon to install a mill at Snow's Falls, was in town a couple of days, last week.

He talks very encouragingly of the prospects of their plan. The stock of their company has been subscribed. Its treasurer is E. C. Wheeler of the firm of E. P. Clark & Co. of Boston, and John F. Wood of Boston is one of the directors.

They have a process of chemically freeing flax waste of shives and degumming whole flax and converting it into linen pulp that can be used in paper making and in the manufacture of linen goods.

The process is a secret, but it has passed the experimental period and the product can be readily sold at a good price.

They expect to get the Snow's Falls mill in operation by early summer. The machinery is now being made and the extension on the mill will soon be commenced. It is their intention to put in machinery for a ten ton plant. That is, a plant that can produce ten tons of linen pulp in 24 hours.

This mill when in operation will employ from 30 to 40 hands.

The closing concert in the Fryeburg Academy lecture course takes place, Friday evening, April 4th, by the Boston Concert Company.

Heavy rain here Friday night, Saturday, Sunday night and Monday. The grass is looking green, the trees are putting forth buds and we are reminded on every hand that spring has come.

Rev. Mr. Spaulding of Syracuse, N. Y., preached the Easter sermon in the Congregational church, at 10 a. m., and platform were very neatly decorated with flowers. The Sunday school gave a concert in the evening.

All the logs that were on the banks of the river above Swan's Falls have been rolled in and are being driven toward their destination.

The river is at about the right pitch. The early spring favors the lumber dealers, who just escape having their logs taxed on the banks of the river. Last year it was otherwise.

HARRISON.

James Hanson, another of our aged citizens, "passed over the river," on the morning of March 27. He had not been quite as active through the winter as usual, but was about the house until a few days before his death. A gradual declining in strength, hastened by a cold taken in the winter, seemed to be all that ailed him. Although 87 years of age, his mental faculties were unimpaired. He read the papers every day, and without the aid of glasses, and kept in touch with all the doings of the outside world.

He leaves a wife with whom he lived 52 years, and seven children. His daughter, Mrs. Berick of Portland, came to help care for him in his last days.

Funeral services at the house were held last Saturday, conducted by Rev. Wm. Barber of Solister's Mills. Two sons, Fred and Charles Hanson, Fred Berick, R. H. Libby and Bert Libby of Portland, and Carroll Allen of Bath attended the funeral. The floral tributes from the absent daughters, detained by sickness, were beautiful.

NORWAY AND VICINITY

Norway Village Corporation Meeting. Next Monday evening, Apr. 14, at 8 o'clock, Norway Opera House. We glean from the report:

Valuation.....\$45,687
Amt. committed for collection.....4,918
Abatement allowed.....4,812
Liabilities.....3,656
Resources.....2,417
Net debt Apr. 1, 1901.....1,244
Decrease of debt.....1,629

We have been fortunate and have had only three fires, the past year, and those all small, the damage amounting to no more than \$900.

Among the things to be considered at this meeting are:

To see what action the corporation will take toward making a contract with the Oxford Light Co. to light the street for five years and establish a price; also for the ensuing year; to locate an electric light on Cottage street and another at corner of Elm and the street leading from Main to the house of P. H. Nevins.

To see about buying a portable fire extinguisher for use of fire department; build a small addition to engine house building; to have the fire department hold twelve meetings instead of eight year; to establish a hydrant at corner Greenleaf Ave. and Elm St.

Silas H. Wetherbee is quite ill with pneumonia.

Mrs. Alfred Babb is spending a few days with her parents in Kennebunk.
